## PARAMEDICAL & MANAGEMENT INSTITUTE

### ABOUT US

Welcome to Gaytri Paramedical & Management Institute (GPMI Foundation), your premier destination in New Delhi for comprehensive paramedical & management education. The GPMI Foundation, operating under the aegis of the Physio Medical Council of India (PMCI), is dedicated to advancing paramedical education and training across the Nation and was established in 2014.

The foundation aims to uphold high standards in the medical sector by providing quality education, promoting ethical practices, and fostering research and development in the field. Our institute prides itself on delivering quality education through our experienced and dedicated faculty, who bring a wealth of knowledge and real-world experience to the classroom.

### VISION & MISSION

At GPMI, our vision is to spread knowledge and create career opportunities in the paramedical and management education within the medical sector. We are dedicated to making quality education accessible to all, empowering our students to make a meaningful impact in their chosen careers.

Guided by our honorable CMD, Mr. Neeraj Aggarwal, and MD, Ms. Mani Aggarwal, GPMI is committed to providing an educational experience that goes beyond traditional learning. We focus on practical skills, ethical values & professional growth, ensuring our students are well-prepared for real-world challenges.

### WHY GPMI?

1. GPMI is one of the fastest-growing paramedical institutes in Delhi & NCR
2. Working under the aegis of recognized body PMCI, registered with Govt. of NCT of Delhi.
3. GPMI is an ISO 9001:2015 certified organization, indicating a commitment to maintaining high standards of quality in education and services.
4. GPMI offers a wide range of courses in Paramedical & Allied Health Sciences, Management and Academic, ensuring that students have access to specialized programs in high-demand fields.
5. The institute provides courses recognized by UGC-approved universities.
6. GPMI prioritizes the development of practical skills in its students in their respective fields.
7. Comprehensive Learning Environment, Focusing on both academic and personal growth.
8. Encourages leadership development and teamwork that is essential qualities for students.
9. GPMI offers career counseling, training, and admission guidance to help students choose the right courses.
10. Job and Self-Employment Oriented Programs to choose between employment or entrepreneurship.
11. Flexible Learning Modes in regular, distance, and online modes, offering flexibility for students
12. Commitment to Discipline and Responsibility in its students, helping them grow as responsible professionals. Dedicated Faculty and Support to each student.
13. Strong Focus on Practical Knowledge in real-world scenarios, increasing their employability.

### PARAMEDICAL & ALLIED HEALTHCARE PROGRAMS

#### MLT (MEDICAL LAB TECHNOLOGY)

Medical Laboratory Technology (MLT) is a field of healthcare that focuses on diagnosing diseases through laboratory tests on blood, urine, tissues and other body fluids. Medical Lab Technologists use specialized equipment to analyze samples, detect infection and assist doctors in accurate diagnosis and treatment.

MLT professionals work in hospitals, diagnostic labs, blood banks, and research centers. They perform tests in hematology, microbiology, biochemistry and pathology, playing a crucial role in patient care.

#### JOB & CAREER OPPORTUNITIES

You have a wide range of career opportunities in the healthcare field, including jobs in clinics, hospitals, diagnostic labs, blood collection centers, and research institutions. With support in job placement and training for self-employment, graduates can choose to work in the government sector, join private healthcare organizations, or start their own ventures. This flexibility allows students to shape their careers based on their interests and goals.

### MEDICAL RADIOLOGY & IMAGING TECHNOLOGY

Radiology and Imaging Technology is a medical science branch that uses imaging techniques to diagnose and treat diseases. It involves the use of X-rays, CT scans, MRIs and other imaging modalities to capture detailed images of the human body. These images help doctors detect injuries, tumors, fractures, and other medical conditions.

Professionals in this field, known as radiologic technologists or radiographers, operate imaging equipment, ensure patient safety, and assist radiologists in interpreting results.

### JOB & CAREER OPPORTUNITIES

After completing your course, you can pursue various roles in the medical imaging and radiology field. Career options include becoming a Radiologic Technologist (Radiographer), MRI Technologist, CT (Computed Tomography) Technologist. You can also work as a Radiation Therapist, Medical Imaging Sales Representative, or Clinical Instructor/Educator.

Additionally, opportunities exist to become a Radiology Department Manager or take on other important positions in hospitals, diagnostic centers, and related healthcare facilities. These roles offer rewarding careers in both clinical and administrative settings.

### OPTOMETRY TECHNOLOGY

Optometry Technology is a field that focuses on eye care, vision testing, and the diagnosis of visual disorders. It involves the use of specialized equipment to examine eyesight, detect eye diseases, and prescribe corrective lenses, such as glasses or contact lenses.

Optometry technologists assist optometrists in performing eye exams, operating vision-testing devices, and managing optical prescriptions.

They play a crucial role in eye hospitals, optical clinics, vision care centers, and multinational eyewear companies.

**DIPLOMA IN OPTOMETRY TECHNOLOGY**

### JOB & CAREER OPPORTUNITIES

After Completing your course you can become a Optometric Technician, Optician, Optometrist Assistant, Vision Therapist, Contact Lens Technician, Optometric Researcher, Optometry Clinic Manager, Sales Representative for Optical Products. Also work as Optometry Technician Trainer/Educator, Eye Care Product Specialist, Optometry Equipment Specialist, Low Vision Specialist, ETC in eye hospitals, optical clinics, vision care centers, and multinational eyewear companies .

### OPERATION THEATRE TECHNOLOGY

Operation Theatre Technology is one of the most well-known and respected professions in the paramedical field.

As an OT Technician, you will be responsible for maintaining a sterile environment in the operation theatre, ensuring that all instruments are clean, and assisting the surgical team throughout the surgery.

An OT Technician works directly in the operation theatre, supporting surgeons and ensuring that all instruments and equipment are ready for use.

**B.SC. DT**

**MASTER IN DT**

**MDT**

**BACHELOR IN RELAVANT FIELD**

### JOB & CAREER OPPORTUNITIES

After completing your training, you can work as a Dialysis Technician in hospitals, dialysis centers, and kidney care clinics. Your role will involve operating dialysis machines, preparing dialyzers, and monitoring patients during treatment. There are also chances to work in research labs, medical equipment companies, or healthcare management. With experience, you can advance to supervisory or training positions. Additionally, you may start your own dialysis center or offer home dialysis services, making this field ideal for both employment and entrepreneurship.

### NURSING COURSES

Nursing courses provide essential knowledge and skills for aspiring healthcare professionals. These programs cover a wide range of topics, including anatomy, physiology, pharmacology, patient care, and medical ethics.

Nursing courses prepare students for roles in hospitals, clinics, and other healthcare settings, ensuring they deliver compassionate and effective treatment to patients.

**DIPLOMA IN NURSING ASSISTANT**

**ANM**

**2 YEARS AFTER 12TH (ANY STREAM)**

**GENERAL NURSING AND MIDWIFERY**

**GNM**

**3 YEARS AFTER 12TH (PCB/PCM)**

### JOB & CAREER OPPORTUNITIES

After completing a nursing course, you can explore diverse job opportunities such as staff nurse, nurse educator, nurse manager, ICU nurse, clinical nurse specialist, public health nurse, nurse practitioner, home care nurse, and nursing researcher.

Nurses find roles in hospitals, clinics, government agencies, NGOs, and insurance companies, offering a wide range of career paths. Additionally, nursing skills are in demand internationally, providing chances to work abroad. This versatility makes nursing a highly valued and flexible profession in healthcare, with opportunities to grow in clinical, educational, managerial, and research fields.

## ONLINE/OFFLINE/DISTANCE LEARNING CERTIFICATE & DIPLOMA COURSES

Our institute offers a widerangeof certificate anddiplomacoursesdesignedtoequipstudents with practical skills and job-ready knowledge.

From Emergency Medical Technology and Microbiology to cutting-edge fields like AI, Cyber Security, and Software Development, we also provide training in Account & Finance, Business Law, HR, Marketing, and more onregular, distance & Online modes.

### 👉 Emergency Medical Technician (EMT)

- Duration: 6 months to 2 Years
- Eligibility: 12th pass

This course trains students in emergency care, patient handling, and ambulance support, preparing them to respond quickly in life-saving situations in hospitals or on-site emergencies.

### 👉 Diploma in Account & Business Law

- Duration: 1 year
- Eligibility: 12th pass

The Course Covers fundamentals of accounting and legal principles in business, useful for careers in bookkeeping, compliance, and legal support roles in corporate or small business setups.

### 👉 Diploma in Account & Finance

- Duration: 1 year
- Eligibility: 12th pass

Teaches financial accounting, tax, and budgeting. Ideal for students aiming for jobs in accounting firms, banking, or finance departments of companies.

### 👉 Diploma in Business Management

- Duration: 1 year
- Eligibility: 12th pass

It Covers the basics of planning, strategy, and operations, helping students develop managerial skills for entry-level roles in various business sectors.

### 👉 Diploma in Human Resource Management (HRM)

- Duration: 1 year
- Eligibility: 12th pass

This Course focuses on recruitment, employee relations, payroll, and training. Prepares students for junior HR executive or assistant roles in any industry.

### 👉 Diploma in Marketing

- Duration: 1 year
- Eligibility: 12th pass

Provides knowledge of branding, digital marketing, and sales techniques. Prepares students for roles in marketing agencies or sales departments.

### 👉 Diploma in Business Administration

- Duration: 1 year
- Eligibility: 12th pass

Combines elements of management, operations, and leadership. Suitable for those wanting to manage or support business processes in small or large firms.

### 👉 Diploma in AI and Machine Learning

- Duration: 1 year
- Eligibility: 12th pass with Science/Maths or Computer Science

Covers basics of artificial intelligence, data handling, and algorithms. Prepares students for entry-level roles in AI development or tech research.

### 👉 Diploma in Cyber Security

- Duration: 1 year
- Eligibility: 12th pass with Computer Science or equivalent

Teaches network security, ethical hacking, and data protection. Prepares students to assist in securing digital systems for companies or clients.

### 👉 Diploma in Software Development

- Duration: 1 year
- Eligibility: with Computer Science or equivalent

Students learn coding, database management, and application development. Ideal for those aiming to become software developers or IT support professionals.

### 👉 Diploma in Computer Applications (DCA)

- Duration: 1 year
- Eligibility: 12th pass

Covers basic computer skills, MS Office, internet use, and data entry. Suitable for administrative and data support roles.

### 👉 Diploma in Mass Communication

- Duration: 1 year
- Eligibility: 12th pass
- 
- Focuses on media writing, public relations, journalism, and content creation. Opens doors to careers in media houses, advertising, and public communication

### 👉 Diploma in Microbiology

- Duration: 1 year
- Eligibility: 12th pass with Science

Covers microorganisms, lab testing, and research techniques. Prepares students for lab assistant roles in healthcare, pharma, and research labs.

### 👉 Diploma in Archegoniate

- Duration: 1 year
- Eligibility: 12th pass with Biology

Focuses on studying ferns, gymnosperms, and bryophytes. Suitable for students interested in botany, plant science, or biological research fields.

## ONLINE/DISTANCE LEARNING DEGREE PROGRAMS

Degree programs offer diverse opportunities for academic and career growth. Arts students can explore fields like Literature, History and Psychology. Commerce students can pursue degrees in Accounting, Finance, Business Management, or Economics.

Science students have options like Physics, Chemistry, Biology, Mathematics, and Computer Science. Each stream supports personal growth, skill development..

### 👉 BA (Bachelor of Arts)

Duration: 3 Years

- Eligibility: 10+2 from any stream

BA is a foundational degree in humanities covering subjects like history, political science, economics, and sociology. It's ideal for students interested in public services, teaching, writing, or pursuing higher education in the arts.

### 👉 B.Com (Bachelor of Commerce)

- Duration: 3 Years
- Eligibility: 10+2 with Commerce or any stream

B.Com focuses on commerce, accounting, business law, and economics. It prepares students for careers in finance, banking, taxation, and business management. Suitable for those aiming for CA, CS, or MBA studies.

### 👉 B.Sc. (PCM, PCB, ZBC)

- Duration: 3 Years
- Eligibility: 10+2 with Science stream

B.Sc. offers specialized study in science subjects: PCM (Physics, Chemistry, Math), PCB (Physics, Chemistry, Biology), ZBC (Zoology, Botany, Chemistry). It leads to careers in research, labs, teaching, or further study in science-related fields.

### ← BLIS (Bachelor of Library & Information Science)

- Duration: 1 Year
- Eligibility: Graduation in any stream

BLIS trains students in library management, cataloguing, and information systems. It is ideal for those seeking jobs as librarians, documentation officers, or information analysts in schools, colleges, and research institutions.

### ← BA in JMC (Bachelor in Journalism & Mass Communication)

- Duration: 3 Years
- Eligibility: 10+2 from any stream

This course develops skills in journalism, reporting, content writing, PR, and media production. It opens doors to careers in TV, radio, digital media, newspapers, and advertising agencies.

### ← BBA (Bachelor in Business Administration)

- Duration: 3 Years
- Eligibility: 10+2 with Commerce or any stream

BBA covers management, marketing, finance, and HR fundamentals. It builds a strong foundation for business leadership roles and is a stepping stone to MBA or entrepreneurial ventures.

### ← BCA (Bachelor in Computer Application)

- Duration: 3 Years
- Eligibility: 10+2 with Mathematics or Computer as a subject

BCA focuses on software development, programming languages, and IT systems.

Ideal for students aiming for careers in tech, software engineering, or further studies like MCA.

**GPMI**  
FOUNDATION

**GAYTRI**

**PARAMEDICAL & MANAGEMENT INSTITUTE**

## ONLINE / DISTANCE MODE PG DIPLOMA

PG Diploma courses are advanced-level programs designed for graduates who wish to gain specialized knowledge and practical skills in a specific field.

These courses are shorter than a full degree but offer career-focused training, making students job-ready in less time. Ideal for professionals and fresh graduates & open doors to better job opportunities, higher salaries, and career growth.

### 👉 PGDCA (Post Graduate Diploma in Computer Application)

- Duration: 1 Year
- Eligibility: Graduation in any stream

PGDCA is designed to equip students with professional knowledge in computer applications. The course includes programming, database management, web design, and software development. It is ideal for graduates seeking a quick and practical path into the IT sector.

### 👉 PGJMC (PG Diploma in Journalism & Mass Communication)

- Duration: 1 Year
- Eligibility: Graduation in any stream

This course designed to build advanced skills in media, communication, and journalism. It covers news writing, TV and radio reporting, digital media, public relations, and media laws. Ideal for graduates interested in storytelling and mass communication, this course opens career paths in print and electronic media, advertising agencies, PR firms, and digital content platforms.

### 👉 PGDBM (PG Diploma in Business Management)

- Duration: 1 Year
- Eligibility: Graduation in any stream

PGDBM offers foundational and advanced knowledge in marketing, HR, finance, and operations. It is suitable for aspiring managers and entrepreneurs who want to gain business skills in a short time. This course improves decision-making, leadership, and strategic thinking.

**GPMI**  
FOUNDATION

**GAYTRI**

**PARAMEDICAL & MANAGEMENT INSTITUTE**

## ONLINE & DISTANCE MODE MASTER'S DEGREE

Master degree courses offer advanced knowledge and specialization in a chosen field, enhancing career opportunities and expertise. These programs typically span one to two years and include research, practical training, and in-depth study.

Ideal for graduates, master degrees prepare students for leadership roles, academic pursuits, or professional excellence in various industries.

### 👉 MA in Sociology

- Eligibility: Graduation in any discipline
- Duration: 2 years

MA in Sociology explores social structures, behavior, and institutions. Students study topics like caste, gender, inequality & social change. The course prepares graduates for careers in teaching, research, social work, NGOs, or policy-making, and builds analytical skills to understand and solve societal issues

### 👉 MA in Political Science

- Eligibility: Graduation in any discipline
- Duration: 2 years

MA in Political Science focuses on political theories, public administration, international relations, and law. It develops an understanding of governance, diplomacy, and policy-making. This degree is ideal for careers in civil services, research, teaching, journalism, or political consulting, and suits those interested in public affairs.

### 👉 MA in History

- Eligibility: Graduation in any stream (preferably with History)
- Duration: 2 years

MA in History studies ancient, medieval, and modern history, historical methods, and heritage. It enhances critical thinking and research skills. Graduates can work as teachers, researchers, archivists, museum curators, or heritage professionals, or pursue further studies like M.Phil. or Ph.D. in historical and cultural studies.

### MA in English

- Eligibility: Graduation in English or any stream
- Duration: 2 years

MA in English covers British, American, Indian, and world literature along with literary theory, criticism, and linguistics. It develops communication, analytical, and creative writing skills. Graduates can work in teaching, publishing, journalism, etc.

### MA in Journalism

- Eligibility: Graduation in any discipline
- Duration: 2 years

MA in Journalism trains students in media ethics, news reporting, digital media, editing, and communication. It prepares graduates for careers in print, electronic, and online media. Suitable for those aiming to become journalists, news editors, media anchors, content creators, or public relations professionals.

### MA in Education

- Eligibility: Graduation (preferably in Education or related field)
- Duration: 2 years

MA in Education explores educational theory, curriculum development, psychology, and teaching methods. It prepares candidates for roles in academic administration, school leadership, curriculum design, and education policy. Ideal for teachers or education professionals aiming to upgrade skills or work in training, administration, and research.

### MA in Public Administration

- Eligibility: Graduation in any stream
- Duration: 2 years

IT covers governance, administrative theories, public policy, and development administration. It prepares students for roles in government services, NGOs, administration, and policy research. The course is highly recommended for those aspiring to appear in competitive exams like UPSC and state services.

### 👉 M.Com (Master in Commerce)

- Eligibility: B.Com or relevant degree
- Duration: 2 years

M.Com focuses on accounting, business management, taxation, economics, and finance. It prepares students for careers in banking, auditing, corporate finance, teaching, or research. The course also builds a strong foundation for pursuing professional certifications like CA, CS, CMA, or a Ph.D. in commerce-related subjects.

### 👉 M.Sc. in Mathematics

- Eligibility: B.Sc. in Mathematics or equivalent
- Duration: 2 years

It offers advanced training in algebra, calculus, statistics & mathematical modeling. The course sharpens logical reasoning and problem-solving abilities. Graduates can work in teaching, data science, research, actuarial services, IT industries, or continue toward doctoral studies in mathematics.

### 👉 MBA in Human Resources (HR)

- Eligibility: Graduation in any discipline
- Duration: 2 years

MBA in HR focuses on employee management, organizational behavior, recruitment, training, labor law, and performance appraisal. It prepares graduates to manage human capital in organizations.

Career options include HR manager, talent acquisition specialist, training officer, or working in HR consultancy, payroll, and corporate strategy departments.

### 👉 MBA in Marketing

- Eligibility: Graduation in any stream
- Duration: 2 years

MBA in Marketing teaches the students about branding, advertising, consumer behavior, digital marketing, and sales strategy.

This course equips students for careers in marketing management, product promotion, retail, brand consultancy, and market research. The course is ideal for creative and business-minded individuals.

### ← MBA in Finance

- Eligibility: Graduation in any discipline
- Duration: 2 years

MBA in Finance covers financial analysis, investment, risk management, budgeting, and accounting. It prepares students for careers in banking, investment firms, corporate finance, financial planning, and insurance. The course builds analytical and quantitative skills needed for roles like financial analyst, auditor, or finance manager.

### ← MBA in Operations

- Eligibility: Graduation in any discipline
- Duration: 2 years

It teaches supply chain management, production control, logistics, and quality assurance. It prepares students to handle business processes, inventory, and service delivery. Career options include operations manager, supply chain analyst, logistics manager, and roles in manufacturing, services.

### ← MCA (Master in Computer Applications)

- Eligibility: BCA or Graduation with Mathematics
- Duration: 2-3 years

MCA trains students in software development, programming languages, database management, and web technologies. It prepares graduates for IT roles like software engineer, app developer, database administrator, and system analyst. The course is ideal for students aiming to enter the software or tech development industries.

### ← M.Lib. (Master in Library Science)

- Eligibility: B.Lib. or equivalent degree
- Duration: 1 year

M.Lib. teaches advanced library management, digital archiving, cataloging, and information science. It prepares professionals for managing modern libraries and digital knowledge centers. Graduates can work as librarians, information officers, or archivists in universities, institutes, schools, research centers.

## ADMISSION PROCESS

The admission process at **GPMI FOUNDATION** is simple, and student-friendly. Students who have passed 10th or 12th (depending on the course) can apply. You can apply online through our website or by visiting our institute in person. Submit the required documents, fill out the admission form and complete the fee payment.

Our dedicated team is always available to assist you at every step, hassle-free, and quick admission experience for all aspiring paramedical students.

## FILL ENQUIRY FORM FOR COUNSELLING

Before applying for any course, we recommend you fill out the inquiry form to book a free counseling session with our expert counseling team.

This session will help you get complete information about the course, understand career opportunities, and clear all your doubts before taking the next step.

👉 [FILL ENQUIRY FORM HERE](#)

## FILL ADMISSION FORM

We highly recommend visiting our institute in person for admission. You can fill out the physical admission form, submit all required documents, and pay your registration fee at the institute.

However, if you're unable to visit, you can download the admission form, fill it carefully, and send the scanned form along with all necessary documents to our email: [admin@gpmi.net.in](mailto:admin@gpmi.net.in) and also WhatsApp them to 8826661073.

Our team will process your admission smoothly and keep you updated.

👉 [Download ADMISSION FORM FROM HERE](#)

## DOCUMENT VERIFICATION & FEE PAYMENT

After receiving your admission form, our institute will carefully verify the details and submitted documents. If everything is found to be in order, we will contact you and request the payment of fees, which can be made through cash, online payment, or bank transfer as per your convenience & get Admission Confirmation Slip.

## PARAMEDICAL & MANAGEMENT INSTITUTE

### INTERNSHIP & PLACEMENT

At GPMI FOUNDATION, we not only focus on academic excellence but also ensure practical exposure through internship in reputed hospitals, labs & healthcare centers.

Our dedicated Placement Cell assists students in finding suitable job roles after course completion. We regularly organize campus interviews, skill development sessions, and career guidance programs to help students start their professional journey with confidence.

### INTERNSHIP PROGRAM

Most of our students get a 6-month internship after completing one year of study to gain real industry exposure. We provide internships in both government and private hospitals, labs, OPDs, and diagnostic centers.

Our key government hospital tie-ups include Madan Mohan Malviya Nagar Dispensary and Charak Palika Hospital, Moti Nagar, Delhi, ensuring hands-on training in real healthcare settings.

### FINAL PLACEMENT

After completing their course and internship, students become eligible for final placement in reputed hospitals, diagnostic labs, blood banks, and healthcare centers. Our placement team supports students with job updates, interview preparation, and referrals.

### GPMI FOUNDATION GROUP PROJECTS

The foundation aims to uphold high standards in the medical sector by providing quality education, promoting ethical practices, and fostering research and development in the field. GPMI Foundation aim to enhance healthcare and paramedical education through various initiatives...

#### ← GAYTRI BLOOD COLLECTION CENTRE

The Gaytri Blood Collection Center, established in October 2024 under the GPMI Foundation, is dedicated to enhancing healthcare services alongside paramedical education.

With a strong commitment to excellence, the center offers reliable blood collection services, including home collection, ensuring convenience and quality care for the patients.

As part of its mission, it strives to make healthcare more accessible and efficient, reinforcing its role in community well-being and medical advancement.

#### ← GAYTRI OPD & DIAGNOSTIC CENTRE

Gaytri OPD & Diagnostic Center, launched on January 12, 2025, extends the services of the Gaytri Blood Collection Center, functioning every day under the GPMI Foundation. It offers OPD and diagnostic services, ensuring accessible healthcare for the community. This initiative also promotes skill development in the medical field.

#### ← GAYTRI GROUP OF MEDICAL COLLEGES & HOSPITAL

Gaytri Group of Medical Colleges & Hospital is set to launch soon in Ballabgarh, Haryana, with a 100-bedded hospital and an Ayurvedic & Unani Medical Colleges. As part of PMCI (Physio Medical Council of India) mission, this initiative will enhance healthcare services and education promoting holistic wellness and expanding opportunities in the medical and paramedical fields.
